

Merlin for CLM

Merlin Contract Discovery

The importance of accurate and accessible metadata should not be undervalued. The extraction of this metadata manually is time-consuming and lacks accuracy. The Merlin Contract Discovery will help you automate extraction of metadata from contracts. The module will help you give meaning to data by providing streamlined data, compliance checks, and risk identification.

4 SIGNS YOU NEED MERLIN CONTRACT DISCOVERY

There is too much information to analyze and not enough manpower to do so.

There is no efficient method for quality-checking existing metadata.

Information is stored in unstructured drives and cannot be instantly located.

There is a lack of consistent use of metadata.

WHAT DOES MERLIN CONTRACT DISCOVERY MODULE DO?

The Contract Discovery Module will automatically find, extract, and review significant contract information in seconds. It enables customers to automate a manual process and provide a high degree of efficiency and process compliance.

HERE'S HOW WE HELP YOU

FASTER ONBOARDING
Once model personalization is done, bulk imports of the contracts can be done in most efficient manner without hassles of manually creating the import templates

ACCURATE DATA CAPTURE
Mistakes in manual entry of data; or due to the carelessness/impatience of the employees are completely eradicated resulting in a better repository and reporting

QUICKER CONTRACTING
Users can start contracts from external papers just as efficiently as using the internal templates – important terms along with clauses are auto captured

EFFICIENT NEGOTIATION
Any changes in important contract terms during each internal & external review iterations are automatically captured

BUSINESS IMPACTS

Increased data integrity

Streamlined processes

Increased data traceability

Accelerated decision-making

Increased operational use of information that was previously unreachable

YOU ARE IN GOOD HANDS
