

ZYCUS

Introducing
ZYCUS MERLIN A.I. SUITE
The Journey to Intelligent Procurement

3I maturity model for procurement transformation

AI: Zycus foundation

AI Pioneer & Leader: 20+ years of AI legacy & experience

AI technology featured in the very first patent filed by Zycus back in 2002

Zycus Merlin A.I. Suite is one of a kind platform for procurement to leverage cutting edge A.I. technology, by using BOTs to automate routine, mundane or data-intensive tasks.

Now, your team can focus on strategic activities to create profound business impact.

Know Some of Our Expert Procurement BOTS from Merlin A.I. Suite

Force Majeure De-Risker BOT

- Auto-identify Force Majeure clause in the enterprise contracts
- Highlight the risk score at a contract level

Contract Extractor BOT

- Intelligently identifies, extracts and analyses contractual texts
- Extract metadata and custom fields from contracts

Invoice Extractor BOT

- Automate invoice intake
- Extract key business fields (including header and line level details)
- Create auto-draft in the eInvoice system

AP Inbox Manager BOT

- Intelligently sort and classify the emails from AP mailbox
- Auto-fetch status of the invoices
- Auto-generate responses to supplier emails on payment and invoice queries

Contract De-Risker BOT

- Auto-identify clauses in the contract from a repository
- Benchmark it against organization's best practices
- Highlight the review score at the contract level

Unlock Strategic Advantages with Merlin AI Suite

Optimize Efforts

Reduce TAT
