

# MERLIN FOR RISK

AI-Driven External Insights for Comprehensive Supplier Risk Analysis

## Why Zycus?

## Real Time Analysis of Risk and Performance Management with ChatGPT

### Real Time Risk Alerts

Stay well-informed with real-time risk alerts powered by ChatGPT, enabling rapid responses to critical supplier risk events and proactive risk mitigation strategies

### Supplier Due Diligence

Leverage Merlin Risk Radar's extensive web-crawled data, now enhanced by ChatGPT, for thorough due diligence on potential suppliers, facilitating informed decisions

### Supplier Analysis and Segmentation

Elevate supplier selection and management decisions by utilizing historical performance analysis and tailored strategies further refined by ChatGPT's accuracy

## Product Overview

### ✓ Real-Time Risk Alerts, News Feed Search, and Supplier Onboarding Risk Check

Leveraging ChatGPT and diverse internet data sources, our system automates real-time supplier risk assessments, ensuring precise and informed supplier onboarding decisions with unrivaled accuracy and efficiency

### ✓ Risk Score Visibility across Other Products

Seamlessly integrate risk scores into other products, providing supplier risk visibility during transactions and enabling informed decisions across the system
