The Challenge

Most eSourcing platforms today often lag in adoption due to complex interfaces and time-consuming processes.

With sourcing cycle time reduction as a key objective for **67% of CPOs**, there's a need for AI-powered solutions that enable faster, more intuitive sourcing to improve productivity and value creation across all sourcing events.

The Solution

- ✓ **AI-Enhanced Vendor Management**
Benefit from AI-generated vendor insights to power proactive sourcing strategies.
- ✓ **Agile RFX Automation**
Leverage AI to create, review, and score RFXs faster, reducing time while improving precision.
- ✓ **Intuitive eAuction Tools**
Instant bid tracking and real-time adjustments streamline sourcing, ensuring optimal value.
- ✓ **Comprehensive Risk Management**
Built-in governance and risk controls maintain consistent compliance across every sourcing action.
- ✓ **Supplier Collaboration Portal**
Facilitate continuous supplier engagement and real-time responses with a user-friendly collaboration portal ZSN, driving better sourcing outcomes.
