The Challenge

Organizations often face inefficiencies that extend from PR to PO cycles and increase operational costs. Compliance risks emerge from manual processes, leading to potential legal and financial penalties.

According to research, over 50% of organizations cite compliance and risk management as top procurement challenges, highlighting the critical need for streamlined, AI-driven solutions to enhance efficiency and ensure compliance.

The Solution

- | | |
|---|--|
|  Autonomous Negotiation Agents
Achieve deep savings by autonomously negotiating optimal supplier contracts. |  Merlin for eProcurement
Intuitive, Amazon-like interface for seamless purchasing experiences. |
|  AI-Generated Contract Summaries
Speed up decision-making processes by unlocking valuable insights and minimizing contract risks. |  Merlin for eInvoicing
Gen AI extraction of information from invoices, improving response times to supplier queries and enhancing accuracy. |
|  Supplier Questionnaire Automation
Address issues with Supplier Corrective Action Requests (SCARs) based on performance reviews |  Merlin for Contract Management
Automate contract clause analysis, metadata extraction, and risk identification, effective contract management. |
|  Instant Supplier Risk Assessment
Proactively manage risks with real-time insights, ensuring value is maximized from supplier relationships while maintaining compliance. |  Merlin for Risk Management
Harness online data to deliver timely alerts on supplier risks, facilitating proactive risk mitigation strategies. |
