## The Challenge

Manual AP processes are slow, error-prone, expensive—and risky. Paper invoices, manual validations, and endless email threads expose enterprises to:

- Delayed payments
- Lost early payment discounts
- Duplicate payments and fraud
- Compliance risks and audit failures

## Why Zycus AP Automation Delivers More

### Merlin AI-Driven Invoice Extraction & Matching

Self-learning, template-agnostic extraction with real-time 3-way matching across POs, GRNs, and invoices — delivering 70–85% touchless processing.

### Autonomous Supplier Query Resolution

AP Smart Desk automatically reads and responds to supplier emails, cutting query turnaround times by over 80%.

### Embedded Real-Time Risk Checks

Invoices scanned against global risk databases before approval — integrated with Zycus iRisk for proactive compliance control.

### Unified with End-to-End P2P Orchestration

Seamless flow from Merlin Intake to AP — fully integrated with requisitions, sourcing, contracts, and payments without bolt-ons.

Zycus AP Automation, Merlin Agentic AI is not just an assistant—it's the core operator. Every invoice is intelligently read, matched, validated, risk-checked, and routed without manual effort.
