ZYCUS

Procure-to-Pay That Thinks, Learns, and Executes—Autonomously

P2P is no longer about just connecting requisitions to payments. It's about orchestrating every step—**intelligently, compliantly, and without friction.**

60% Reduction in **PR Approvals**

85% Improved Touchless **Invoice Processing**

4X Better User Adoption

2X Improved PO to Contract Alignment

Zycus Procure to Pay

Zycus Merlin Intake — Employees raise requests via MS Teams, web, or mobile. Merlin Intake Agent guides users based on policy.

Touchless PR to PO

Requisitions convert to POs using rule-based automation. PO pricing aligns with contracts and approvals work seamlessly on mobile.

Invoice Processing Automation

Invoices are captured via email OCR and auto-matched. Budget, tax, and risk validations ensure accuracy before payment.

Built-In Budget & Compliance Checks

Real-time budget checks at requisition prevent overspend. Compliance rules and No PO–No Pay policies are enforced automatically.

Zycus Named a LEADER

In The Forrester Wave™: Supplier Value Management Platforms, Q3 2024

Procure to Pay: The Challenge

42% of procurement leaders cite poor visibility into transactions as their top P2P challenge, while Gartner notes that manual invoice processing still accounts for over 50% of AP workloads in many organizations.

Traditional Procure-to-Pay processes are riddled with fragmentation—manual requisitions, policy violations, delayed approvals, contract non-compliance, and invoice exceptions are the norm rather than the exception.

Zycus Procure to Pay: The Solution

✓ **Conversational Merlin Intake**
Centralizes and standardizes procurement intake across channels with AI-driven forms, policy routing, and guided buying.

✓ **Touchless Invoice Lifecycle**
Leverages email OCR, 2-/3-way matching, and exception handling to process invoices without human intervention.

✓ **Integrated Supplier Risk Intelligence**
Flags high-risk suppliers at any point in the transaction using embedded iRisk scores and alerts.

✓ **Rule-Based PR to PO Conversion**
Automates the transition from requisition to PO using configurable workflows, contract-aware pricing, and zero manual touchpoints.

✓ **Live Budget & Policy Enforcement**
Provides real-time budget consumption checks and blocks non-compliant actions with DoA-based approvals.

✓ **Intuitive UX That Drives Adoption**
Mobile-ready, consumer-style interfaces deliver 90%+ adoption rates across business functions without training overhead.

As CPOs face pressure to improve spend control, compliance, and risk mitigation, a unified, intelligent P2P solution is no longer optional—it's essential.
