Zycus Procure to Pay

Zycus Merlin Intake

Employees raise requests via MS Teams, web, or mobile. Merlin Intake Agent guides users based on policy.

Touchless PR to PO

Requisitions convert to POs using rule-based automation. PO pricing aligns with contracts and approvals work seamlessly on mobile.

Cross-Catalog Search

Access internal, hosted, and punchout catalogs in chat with real-time, contract-aware search results. Welcome faster, smarter, and compliant purchasing.

Seamless Integration

Natively connects with sourcing, contracts, and invoicing to ensure real-time data flow. Automatic alignment of requisitions, POs, and invoices.

eProc: The Challenge

Modern procurement teams still face common roadblocks—fragmented catalogs, unstructured purchase requests, policy violations, and low user adoption.

According to The Hackett Group, 45% of organizations struggle with eProcurement adoption due to complex interfaces and lack of guided workflows.

Zycus eProcurement: The AI-Native Solution

- ✓ **Merlin Intake with Guided Buying**
Merlin Intake guides employees through the correct path—catalog, contract, or sourcing—based on policy, category, and value.
- ✓ **AI-Driven Policy Enforcement**
Compliance is embedded. Category-specific forms, approved suppliers, and real-time budget checks ensure every request stays within governance.
- ✓ **Mobile-Ready Experience**
Enable business users to request, track, and approve purchases anytime, anywhere—boosting adoption without training overhead.
- ✓ **Touchless Requisition-to-PO Automation**
Pre-configured rules automatically convert approved requisitions to purchase orders. PO pricing is aligned with contracts, keeping cycles fast and efficient.
- ✓ **Unified Experience**
Unified access to hosted, internal, and punchout catalogs with zero-latency search results—simplifying buyer decisions and improving contract utilization.
- ✓ **Built-In Insights & Controls**
Dashboards deliver real-time visibility into procurement KPIs, contract usage, and compliance adherence—fueling strategic decisions.

As CPOs face pressure to improve spend control, compliance, and risk mitigation, a unified, intelligent P2P solution is no longer optional—it's essential.
