

Stay Ahead of Supplier Risk. Always.

Zycus iRisk, powered by the Merlin Agentic Platform, ensures that procurement teams can detect, respond to, and neutralize risk before it becomes a disruption. It doesn't wait for audits or errors. It scans. It flags. It acts.

The Challenge

75% of companies experienced at least one supply chain disruption in the past year.

Supplier risk isn't a "what if"—it's a when. From financial instability to geopolitical sanctions, ESG violations to reputational threats—every supplier touchpoint is a potential risk exposure.

Zycus iRisk: Powered by Intelligence of Agentic AI

Onboarding

- Automated due diligence using internal and external data
- Pre-checks against regulatory bodies, industry watchlists, and integrated risk feeds (e.g., EcoVadis, D&B, BvD)

Sourcing & Contracts

- Real-time risk scoring visible in sourcing events
- Risk clause analysis and GenAI-suggested mitigation paths

PR, PO & Invoice Processing

- Risk scoring embedded during transaction initiation
- System flags or blocks transactions with suppliers under threat

Continuous Monitoring

- Persistent scanning of news, sanctions, ESG, and financial health
- Digest alerts, risk digests, and actionable insights delivered automatically
